Specialist Registers:

NEC3 ECC Project Manager Accreditation

NEC Experience:

I participated the training course of “NEC3: ECC Project Manager Accreditation” course in Hong Kong in the year of 2018 and successfully get the Accreditation on 29 March 2018.

In the past 7 years, I worked as Civil/Structural Engineer in Main Contractor and currently work in client role as assistant site manager to oversee the HKSTP expansion. My experiences include works included:

Public Works:

1) HATS2A Project (DSD, HKSAR) – Main Contractor;

Private Works:

2) Residential Project in ShaTin – Main Contractor;

3) Resident Project in Pak Shek Kok – Main Contractor;

4) Science Park Expansion (Project SPX1) - Client Role;

5) Industrial Estate 2.0 in Tseung Kwan O (Project A) – Client Role; And

6) Industrial Estate 2.0 in Tseung Kwan O (Project C) – Client Role.

My company is planning to use NEC contract form for future projects and I do believe NEC would be adopted in more and more projects in Hong Kong (Both public works and private projects) in the coming future and it is a time to develop my knowledge of NEC contracts.
